

# AJE Scholarly Publishing Report: China

A brief look at current Chinese publication trends, popular areas of study, and the journals and institutions with the most publications.

The number of papers published grew again last year, with increasing contributions from countries with developing research programs.

## Top Publishing Countries in 2016

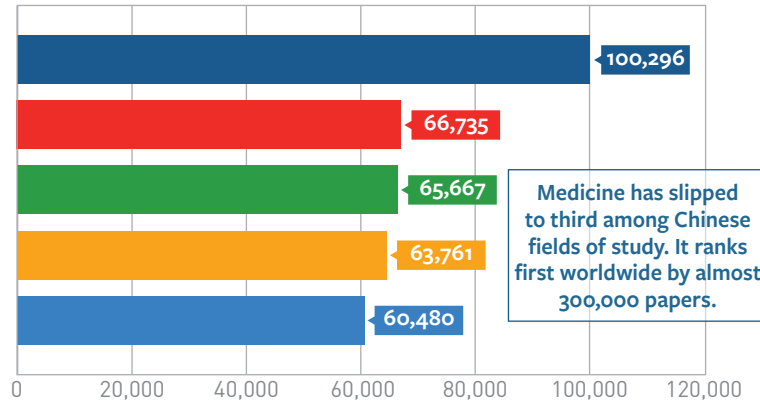

1. United States | 2. China | 3. United Kingdom | 4. Germany | 5. India

## Top 5 Areas of Study in China

by number of publications

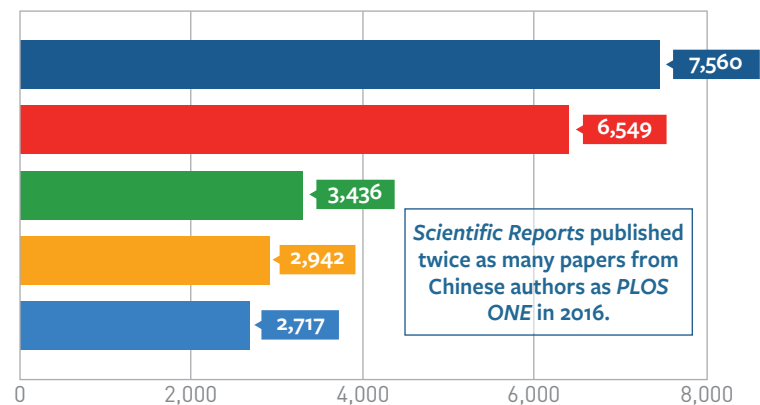

- Engineering
- Materials Science
- Medicine
- Chemistry
- Physics and Astronomy

## Top 5 Journals

by number of Chinese publications

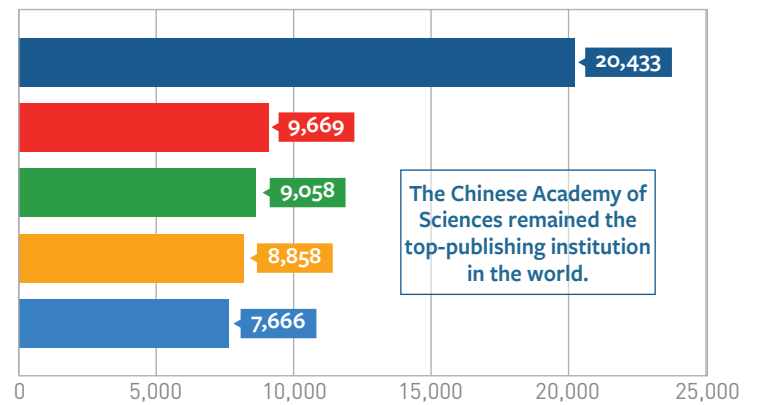

- Scientific Reports
- RSC Advances
- PLOS ONE
- Oncotarget
- International Journal of Clinical and Experimental Medicine

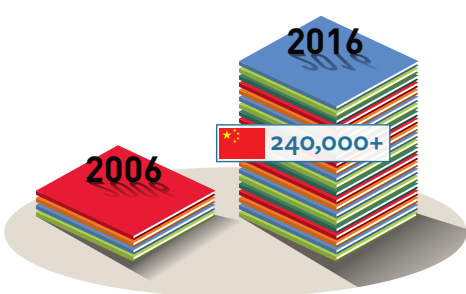

## Top 5 Chinese Institutions

by number of Chinese publications

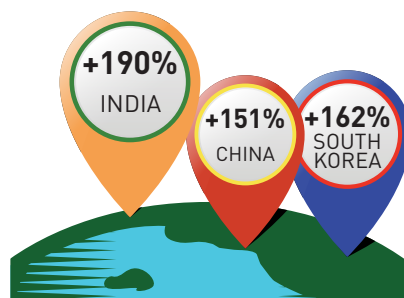

- Chinese Academy of Sciences
- Tsinghua University
- Zhejiang University
- Shanghai Jiaotong University
- Peking University

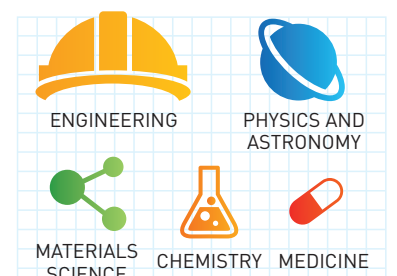

## Looking Back: The Last Decade of Research Publishing in China

151% increase in publications over the last 10 years.

China produced 10% of all papers 2006 to 2016, but its strong growth was outpaced by India and South Korea.

The top 5 fields have not changed since 2006, but Medicine and Materials Science have captured a growing share.

American Journal Experts (AJE) has helped thousands of international researchers to eliminate language barriers and get their work published in the best journals in the world. Our editors are researchers themselves, so we understand the importance of publication and can help authors navigate the often-difficult publication process.
